FRIDAY, FEBRUARY 8, 1889

The Washington correspondent of the Boston Herald declares that the Democratic Senators will not permit themselves to be drawn into a debate on the Southern outrages. They are wise. That gun is wrapped in mourhing, and a thrill of hor loaded and they do well to keep away from the muzzle.

THE BANGOR WHIG has read the argument at the hearing on the Looney bill and sees no reason to change its opision that the measure is not needed. Mr. Looney should immediately withdraw the bill.—Portland Press.

It appears that the majority of the Con mittee on Legal Affairs before whom the alleged argument/was made discovered nothing in the nature of evidence to prove that the change is necessary and report; legislation inexpedient. The WHIG is travelling in very good company and lots

The presence of ex-Senator Warner Mil-ler on the floor of the Senate and in the clock rooms. Tucaday started the tongues cloak rooms. Tucaday started the tongoes of the Cabinet gosspers to wagging vigor onesy. He chatted informally with his Republican friends, and, as reported, insisted that he is not a candidate for a place. sisted that he is not a candidate for a place in the Cabinet, that he has cover been and that all persons who have mentioned his name in that connection have done so without his authority or approval, which explanation erented considerable surprise.

The Portland Press assumes that the

chise" in the Canadian Parliament does not involve dissatisfaction with the system as a whole but only in part. The ict remains, however, that there is a very considerable dissatisfaction with the electoral system now invogue in the Dominion which we understand to be the Australian system, on account of the abuses and . ex Republican Magnates at Dinner. enses that attend it, whatever particular feature of the system it may be against which objections are raised. As to the secret ballot feature, which the 'Press 80 carefully shields as being exempt from the criticism of the Deminion papers, the St.

American fournals have ethate discussed onsal to adopt the Canadian ballot. Their general, impression seems at it will operate as land effective Thegraph does; not know whereof I speaks, but it has had a very good opportunity to study the system and its Itestimony is rather contradictory of the claims put forth by the advocates of the bill which has just been reported adversely by the Committee on Legal Affairs. That committee gave the whole question the benefit of a very careful consideration. They listened patiently to all that was said in behalf of the measure, weighed the evidence, or, rather, noted the entire lack of evidence in support of the bill, and six out of the ten members voted against it as unnecessary legislation. Here again the Press may assume that the majority of the committee made a grievous mistake in not

The Fruit of Corrupt Politics. The Northern Democratic organs that have stood ready to excuse such crimes as that recently committed in Arkanson, or have sought to divest them of all politica significance should hang their heads in chame before the fearless arraignment of this foul assassination, and the acts that lead up to it, published in the Little Rock, Arkansas, Gazette a Southern Democrati paper. Under the significant caption "the truit of corrupt politics' the Gazette thus mercileasly sweeps aside all apologies and

The first despatch re ceived from Plummerville was too meagre in detail to justify a definite conclusion; but a blacker crime than the full particulars develop is unknown to our civilization. I; was a deliberate assassination in its most horrible shape; and the circum stances surrounding . It , give it deepe significance and more telling force. 1

Colonel Clayton was proceeding quietly to gather testimony on which to base his contest for a seat in Congress. The nature of the inquiry he was presecuting was not BEACH. TATIN BH. DAMES. of the sort that leads to violence nor provokes crime. The voters of the township were received below put through an inquiry se to how they voted on the 6th of November. There had not been the least rupture between any of the partles concerned; so that the hand that committed this act was impelled to do it by motives as cooly and deliberately formed and carried out as

the ballot-box in that township on the nightfof the November election as naturally as darkness follows the setting sun. It is political crime that would not have occurred had Colonel Clayton not been there prosecuting a political contest, it is the natural development of corrupt polltics, and it is shocking enough, and horrible ecough, and damaging enough to the State of Arkansas and the whole South to cause a revolution that shall root out the last westige of crime from our politics, let

it cost what it may. Let no man underestimate the gravity of the offense, nor its effect on communities and parties. Had it occurred prior to 1874, when the demoralization of war was with rife and passion had not cooled, the shock might not have been so great, almong the crime would have been none the best diabolical. But it comes at the and of fourteen years of peace and quiet. of local self-government by the bons fide citizens of the State, and at the close, of four years of national Democratic rule, in the success of which the conduct of the

Southern States has been a vital isone. There has never been a time when such an occurrence as this could bring with it graver consequences. It to the MEW YOR AND THE S. S.
